**Product Backlog, Sprint Schedule, and Estimation (4 Marks)**

### Sprint Delivery planning:

| Sprint   | Functional Requirement (Epic) | User Story Number | User Story / Task  | Acceptance criteria   | Priority | Team Members               |
|----------|-------------------------------|-------------------|--|---|----------|----------------------------|
| Sprint-1 | Registration                  | USN-1             | As a user, I can register for the application by entering my email, password, and confirming my password.                                      | I can access my account / dashboard   | High     | K.Prathap<br>P.Karthikeyan |
| Sprint-1 |                               | USN-2             | As a user, I will receive confirmation email once I have registered for the application  | I can receive confirmation email & click confirm  | High     | K.Prathap<br>P.Karthikeyan |
| Sprint-2 |                               | USN-3             | As a user, I can register for the application through Facebook   | I can register & access the dashboard with Facebook Login   | Low      | K.Prathap<br>P.Karthikeyan |
| Sprint-3 |                               | USN-4             | As a user, I can register for the application through Gmail  | I can receive confirmation email & click confirm  | Medium   | M.santhosh<br>N.suthan     |
| Sprint-2 | Login                         | USN-5             | As a user, I can log into the application by entering email & password   | I can access my account / dashboard   | High     | K.Prathap<br>P.Karthikeyan |
| Sprint-2 | Dashboard                     | USN-6             | Create a model set that contains those models, then assign it to a role.   | Assign that group to the appropriate roles on the Roles page  | High     | M.santhosh<br>N.suthan     |
| Sprint-4 | Identity-Aware                | USN-7             | Open, public access, User-authenticated access, Employee-restricted access.  | Company public website. App running on the company intranet. App with access to customer private information. | High     | M.santhosh<br>N.suthan     |
| Sprint-1 | Communication                 | USN-8             | A customer care executive is a professional responsible for communicating the how's and why's regarding service expectations within a company. | For how to tackle customer queries.   | Medium   | K.Prathap<br>P.Karthikeyan |

|          |                   |       |   |              |        |                        |
|----------|-------------------|-------|---|--------------|--------|------------------------|
| Sprint-3 | Device management | USN-9 | You can Delete/Disable/Enable devices in Azure Active Directory but you cannot Add/Remove Users in the directory. | Ease of use. | Medium | M.santhosh<br>N.suthan |
|----------|-------------------|-------|---|--------------|--------|------------------------|

**Project Tracker, Velocity & Burndown Chart: (4 Marks)**

| <b>Sprint</b> | <b>Total Story Points</b> | <b>Duration</b> | <b>Sprint Start Date</b> | <b>Sprint End Date (Planned)</b> | <b>Story Points Completed (as on Planned End Date)</b> | <b>Sprint Release Date (Actual)</b> |
|---------------|---------------------------|-----------------|--------------------------|----------------------------------|--|-------------------------------------|
| Sprint-1      | 20                        | 6 Days          | 30 Oct 2022              | 04 Nov 2022                      | 20   | 04 Nov 2022                         |
| Sprint-2      | 20                        | 6 Days          | 04 Nov 2022              | 09 Nov 2022                      | 18   | 09 Nov 2022                         |
| Sprint-3      | 20                        | 6 Days          | 09 Nov 2022              | 14 Nov 2022                      | 20   | 14 Nov 2022                         |
| Sprint-4      | 20                        | 6 Days          | 14 Nov 2022              | 19 Nov 2022                      | 19   | 19 Nov 2022                         |

**Velocity:**

Imagine we have a 10-day sprint duration, and the velocity of the team is 20 (points per sprint). Let's calculate the team's average velocity (AV) per iteration unit (story points per day)

$$AV = \frac{\text{sprint duration}}{\text{velocity}} = \frac{20}{10} = 2$$

### Burndown Chart:

A burn down chart is a graphical representation of work left to do versus time. It is often used in agile software development methodologies such as Scrum. However, burn down charts can be applied to any project containing measurable progress over time.

**Goal: 60hours in 5days**
